HARDING MAKES REPLY TO CHAIRMAN DEAN

NSWERS CHARGE OF ATTEMPT TO FORCE UNWILLING SERVICE

nvites" Dean, Head of Railway Employes Publicity Association, to Urge Workers to Return to Work Pending Joint Request for Re-Hearing of Labor Board Decisions

(By The Associated Press)

ASHINGTON, July 26—President Harding, in a tel-am sent today to J. Cleve Dean, chairman of the Rail- Employes Publicity Association, Chattanooga, Tenn., vited" Dean to urge striking railway workers to accept decision of the railroad labor board and return to k "until you and I and every one else interested in erican welfare may join in asking the railroad labor rd to give a rehearing on any question concerning ch there is reasonable doubt about the correctness or justice of the decision made."

he president's message was in reply to a telegram he ived last Sunday from Dean in which it was said that attempt to operate mines and railroads by military es or to attempt to draft men into mining or railroad ice would be an attempt to establish involuntary ser-de."

President Harding in his telegram said he was convinced Dean's attempted appeal to American prejudice will fail upon deaf ears.

The president's telegram, dated July 25th, read:

Of Public Interest.

"Since you speak as chairman of the railway employes publicity association and since it is exceedingly important that the American people know precisely the questions at issue in the present railway and coal strikes, I am more than glad to answer your telegram tho I can only treat your politically partisan references with that contempt which is felt by every good citizen in the hour of deep public concern. Happily for the American public everything done and everything said by government authority relating to the two strikes is a matter of record and cannot in any way be distorted. There is no dispute about the loyal American citizenship of the men on strike nor is it disputed that the men on strike are exercising their constitutional and lawful rights under existing statutes in declining to work under the terms decided by the railroad labor board or tendered to the workmen by the mine operators. No one has attempted or proposed to draft free men into either the railway or mining service, or suggested coercion under military force.

American's Rights Equal

"The military forces of free America are never used for such a purpose. Their service is only that of preventing lawlessness and violence. That same unchallenged freedom which permits you and your associates to accept employment under the terms proposed. The difference between the two positions is that the striking railroad workers exercise their rights of freedom in seeking to hinder the necessary transportation of the country notwithstanding the provision made by law for the consideration of any just grievance; and the striking miners seek to prevent the production of coal necessary to common welfare notwithstanding the offer of an agency to make an impartial settlement while the men who choose to work in response to the call of the country are exercising their like rights, and are making their contribution to our common American welfare.

Desire for Justice.

"Without discussing the decisions at issue, it is fair to assume that a government agency is ever ready to correct an error which is made else government itself would become unjust. Moreover it is indisputable that there can be no government unless its mandates are eccepted by the citizenship of the republic. This observation relates more particularly to the railroad situation when the mining situation became menacing I invited representatives of the mine workers and the operators to a conference. In eight days of opportunity no progress was made. In the absence of any tribunal authorized to settle disputes the federal government then voluntarily proposed the creation of a national commission before which the disputes might be settled justly. * * * Instead of contemplating the resort to force it anticipated the very opposite — industrial peace with justice to every man concerned.

No Unwilling Service.

"Instead of aiming at 'involuntary servitude,' to which you inexcusably refer the government asked the mine workers to resume their activities, at precisely

THREAT OF OPEN SHOP CALLS OUT ADDITIONAL MEN

State Officials Inspecting Mine Properties in Franklin County

(By The Associated Press)

MUSKOGEE, Okla., July 26—In retaliation to the threat of the Oklahoma coal operators association and the Southwestern Interstate Coal Operators' association to resume work at their mines under the "open shop" basis, the executive board of district 21, United Mine Workers, comprising Oklahoma, Arkansas and Texas this afternoon passed a resolution calling out engineers, firemen and pumpmen who had been permitted to work at the mines since the national strike began April 1. These men were allowed to remain at work to keep the mines from flooding.

The board also approved district President John Wilkinson's strike call of last week against mines supplying coal to utilities. It went on record as refusing to permit these mines to resume operations in view of the the government's order, permitting railroads to seize coal in order to avoid shortage.

Officials Inspect Mine

Benton, July 26—Officials of the state department of mines and minerals, state mine inspectors and a large number of mine superintendents from various parts of Illinois today inspected the coal mines in Franklin county, the largest coal producing county in the state. The men said they were taking advantage of the strike to check up on the collieries of the county.

Action by Clubs

St. Louis, Mo., July 26—Suggestion that President Harding call a conference of governors to deal with the coal industry and that the striking miners return to work under the wage scale in effect prior to last April, 1, pending adjustment of differences between the operators and miners, was made by the federation of Missouri Commercial Clubs in a letter to Secretaries Hoover and Davis, and Attorney General Daugherty.

Minnesota's Position

St. Paul, Minn., July 26—The Minnesota fuel administration will be called upon to furnish the greater part of the information upon which the federal government will base its plan of coal distrbution in the northwest, C. B. Atchinson of the interstate commission declared in a telegram to Ivan Bowen, state fuel administrator today.

Scattering information received today from public utilities and dealers in farming areas, where coal is needed for harvesting, indicate that only a few weeks supply remains at the most.

Some points have reported the need of shipments within two weeks.

Topeka, Kans., July 26—Assurance that the Kansas industrial court will cooperate with the Southwestern Coal Interstate Operators' association in carrying out its resolution to reopen mines in the Southwest was given by Governor Allen of Kansas today in a reply to the association's notification that a committee had been appointed to discuss the matter with him.

MURDER IS LAID AT DOOR OF BROTHER

(By The Associated Press)

QUINCY, Ill., July 26—Joseph Schoenarth was arrested here this afternoon while on his way to the Y. M. C. A., to take a bath, charged with the murder of his brother, Henry, last Saturday.

The brother, who was a recluse living in a lonely place several miles out of the city was found last Saturday afternoon with three revolver bullets thru his breast, one of which pierced his heart and his left side was torn from the gun shot. The murder was committed in an outbuilding and the body dragged to a ravine a short distance away, the shotun being placed beside it to give the impression of suicide.

ILLINOIS READY TO ENFORCE ORDERS

CHICAGO, July 26—Frank L. Smith, chairman of the Illinois Commerce Commission telegraphed the interstate commerce comission at Washington tonight that the commission stood ready to cooperate in enforcing the service orders in regard to priority in freight traffic and other regulations even if the administration of regulations required policing, surveyance and certification.

NEWSPAPERS CAUSED REPUBLICAN DEFEAT IN 1912, IS CLAIM

McCumber of Finance Committee Makes Charge in Senate

(By The Associated Press)

WASHINGTON, July 26.—Defeat of the Republican party in 1912 was attributed today in the senate by Chairman McCumber of the finance committee to the refusal of that committee three years previously to heed the demands of newspaper publishers that newsprint paper be placed on the free list in the Payne-Aldrich tariff act. His declaration brought demands from the Democratic side for full details and was followed by recitals by Senators Watson of Indiana; Smoot, of Utah; and McCumber of incidents which they said had taken place behind the schemes in congress a decade ago.

Senator Robinson, Democrat, Arkansas, declared that if Senator McCumber's statement that the newspapers, because they could not "intimidate" the finance committee into giving free newsprint had turned against the Republican party and defeated it were true, it was "a terrible indictment against the press, the men wh own it and the men who control its policies."

Wants the Facts

Asserting that he could not accept it without first having definite and complete "information" later Senator Stanley of Kentucky, demanded that Senator McCumber give the names of representatives of the publishers who had made threats to the committee.

Stating that he wanted to give the senate the "facts," Senator Smoot said the late John I. Norris, representing the Newspaper Publishers Association had appeared before a finance sub-committee of which Mr. Smoot was a member; had refused to compromise on the matter of a duty on newsprint and had stated that if a duty were imposed "the Republican party will be driven from power."

Mr. Smoot said he supposed this was the statement from which Senator McCumber had drawn his "conclusions," and added that he did not think Mr. Norris had been authorized by the publishers to make such a statement.

Claims Was Present

Senator McCumber said he had been present at conferences between the publishers' representatives and committee members and remembered details. He added that once when there was a discussion of a compromise as between a duty of $6 a ton and $2.50 a ton on the paper, a publishers' representative had stated that he would not yield "one damn cent" and that if the committee failed to make the desired recommendation for newsprint the publishers would drive the party from power if they could.

CHICAGO STREET CAR STRIKE POSTPONED

(By The Associated Press)

CHICAGO, July 26—Following submission of an eleventh hour arbritration proposal to officers of the Chicago Surface Lines by officers of the stret car men's union tonight, a mass meeting of the 15,000 surface lines employes was called for next Monday night.

Union officials said the men would make no further concessions and asserted that if the surface lines would not do so, a walkout was certain. Some union men predicted a recurrence of the strike of 1919 asserting that after Monday night's mass meeting it would be almost impossible to keep the men at work.

In some quarters the calling of the mass meeting was interpreted as disclosing a disagreement between local union officials and William D. Mahon international union president.

WANT STRENGTHENING TEAMS PROHIBITED

(By The Associated Press)

ST. LOUIS, Mo., July 26—Letters requesting the adoption of a drastic rule prohibiting strengthening of major league baseball teams after June 1, were sent to the managers of the sixteen teams of the American and National Leagues tonight by the Chamber of Commerce. These letters followed a formal protest filled yesterday by the Chamber of Commerce and the Rotary Club with the presidents of the two major leagues.

FEDERAL FUEL CONTROL BOARD NOW ORGANIZED

Governors Asked to Set up Similar State Organizations

REVIEW OF THE COAL SITUATION

(By The Associated Press)

President Harding set in motion the federal fuel control organization with the selection of a central coal distribution committee.

Governor McCray announced that Indiana was arranging to take over and operate "sufficient mines to supply Indiana's necessities."

Missouri operators after conference with Governor Hyde announced co-operation in opening the mines has been assured.

Members of the executive board of Illinois Mine Workers met in St. Louis and announced a state convention at Peoria August 3 to act on peace plans, some union leaders predicting settlement of the coal strike in Illinois within two weeks.

Emergency Fuel Control.

WASHINGTON, July 26.—President Harding tonight set in motion the federal emergency fuel control organization with the selection of a central coal distribution committee of government officials under the chairmanship of Secretary Hoover.

The secretary at the request of the president, immediately wired governors asking them to set up emergency state organizations as the first step toward decentralizing the organization for equitable distribution and maintenance of fair prices for coal under the administration's plan.

"Under this plan," Mr. Hoover said, "the distribution for railway use will be directed from Washington, but, with the possible exception of a few state public utilities, the responsibility for all other distribution will rest upon organizations set up under state control."

Ask State Cooperation.

Cooperation of state organizations was also asked by Interstate Commerce Commissioner Aitchison who telegraphed the several transportation regulatory bodies of the states east of the Mississippi requesting them to act as representatives of the commission in facilitating operation of the emergency service orders giving priority to the shipments of coal and necessities.

The federal coal distribution committee selected by the president consists of Attorney General Daugherty, Secretaries Fall and Hoover and Commissioner Aitchison or their representatives under the temporary chairmanship of Mr. Hoover.

A fifth member is to be added to the committee later, Mr. Hoover said, who will undertake the administrative direction. It was understood at the commerce department that the commission would be an elastic body with administrative aides representing the railroads or geographical sections, such as New England or the Great Lakes region, pressed into service as expert advice on the needs of those sections may be required.

Convention Called.

St. Louis, Mo., July 26.—(By The Associated Press.)—Frank Farrington, president of the Illinois miners today called a convention of delegates of every union in the state to meet August 3 at Peoria to take action on strike peace plans presented by the mine operators. His action was considered so significant that leaders on both side of the contraversy tonight predicted that the strike in Illinois would end within two weeks.

Mr. Farrington's action was taken after an all day conference with his executive board of approximately 30 members from all over the state. The announcement of it was made in a 75 word statement presenting the bar facts of the meeting only, but between the lines union chiefs and mine owners declared they could see the brightest rays of hope since the mines were closed by the suspension of work.

John L. Lewis, international union president, will be invited to the convention it was said.

When asked if the operators' proposal was for a separate wage agreement Mr. Farrington said:

"Don't ask me any questions I won't answer them."

James Morrison helped represent Winchester in the city yesterday.

UP TO RUSSIA NOW TO SETTLE HER DESTINY

British Delegate to The Hague Reports Progress Made

(By The Associated Press)

LONDON, July 26.—Sir Phillip Lloyd-Greame, head of the British delgation at The Hague conference, reporting on the work of that body to the house of commons today expressed the opinion that it had made a long step forward on the path toward a Russian settlement. The next and final step, he added, rested with the Russian government. He denied that the procedure of the conference was forced on one party by the others and declared the only hope of restoring Russia's industry lay in bringing back into it as many of those that built it up as possible.

In the last few days of the conference the Russian delegation had made a marked advance; its first proposal regarding compensation would have left the property in Russia of foregn owners in exactly the same position as before the conference. It was clear said Sir Philip that there was no basis in the Russian government's plan which would attract private investors or justify foreign governments in pledging credits and the conference decided it would be impossible to negotiate further if Russia maintained that attitude. If matters had rested there the conference would still have been of value as it would have made plain the reasons why an agreement was impossible. But happily altho the confernce was unable to recommend any basis of immediate agreement the final phase did offer real hope of concrete results.

The further proposals of the Russians constituted a distinct and remarkable advance; in the words of Sir Phillip, "It was not a formal offer but showed that the Russians were definitely prepared to invite their government to consider a policy which included formal acknowledgement of Russia's debts and the obligation to pay compensation where property had been nationalized."

OUTLOOK GLOOMY IN TENNESSEE

(By The Associated Press)

KNOXVILLE, Tenn., July 26—Declaring it would be impossible to enforce the Hoover price minimum as long as congested rail conditions prevail, E. C. Mahen, who is representing coal operators in Southeastern Kentucky and Tennessee fields in conservation measures instigated by Secretary Hoover, issued a statement tonight in which he described the coal situation in this territory as 'exceedingly gloomy.'

Operators have been summoned to meet Friday at which time committees to supervise the working of the priority routing and distribution system will be named. Production of coal in the Southern Appalachian field has fallen from 180,000 tons per month to 80,000 tons, due largely to inability of railroads to furnish cars, the current production report shows.

WESTERN MANAGERS CLAIM INCREASE IN MEN GOING TO WORK

Say Freight Moving as Offered and Passenger Traffic Normal—Shopmen's Leaders Assert Walkout is Practically 100%—Railroad Board Maintains Hands-Off Policy

SUMMARY OF RAIL STRIKE SITUATION
(By The Associated Press)

B. M. Jewell, head of the striking rail shopmen, international president of the shop crafts, Timothy Healy, president of the Firemen and Oilers Union, and A. O. Wharton, labor member of the railroad labor board, went to Washington to see President Harding.

Western railway executives issued a statement asserting that freight was being moved as offered without congestion and that passenger traffic was normal.

President Harding conferred with W. W. Atterbury, vice president of the Pennsylvania System, and Secretary Hoover, regarding the shopmen's strike.

The Baltimore & Ohio railroad made a written proposal to its shopmen to end the strike on its lines.

CHICAGO, July 26.—Western railway executives in a statement tonight asserted freight is being moved as offered without congestion and passenger traffic is being operated normally, while leaders in the railway shopmen's strike still maintained the walkout was practically 100 per cent.

According to the statement issued by the Western President's committee on public relations of the Association of Railway Executives carloadings exceed those of a year ago except on roads especially affected by the coal strike. All western lines with headquarters in Chicago report increases in the number of men at work in the shops, the statement said.

The Chicago, Burlington & Quincy railroad which yesterday reported an increase of 455 in shop employes, today added 325 more men to its force, the statement said, while the Illinois Central has in its shops 9.885 men as against a normal force of 12,701 the day before the strike started. Men going to work in the past 24 hours numbered 371, the statement said. Freight on the road is being moved promptly, the statement said, and during the first three weeks of July, 98.2 per cent of its passenger trains were on time.

Situation On Santa Fe.

The Atchison, Topeka & Santa Fe reported 6,662 mechanics and 2,884 laborers in its shops, representing 53.3 per cent of normal. The number of shop employes is increasing daily, the statement said. On July 21, the statement said, the road moved 4,040 carloads of freight in and out of Kansas City, this being the fourth time in the road's history that business handled at Kansas City exceeded 4,000 cars.

The Pennsylvania System reported a gain of 662 shopmen for the day, this representing the largest single day's improvement since the strike began, a statement said. The number of shopmen actually at work in the Pennsylvania shops are 43,498, a net gain of 5,213 from the low point during the strike. The shop force today, the statement said is within 20 per cent of a full working force in normal times.

The railroad labor board continued to maintain its hands off policy.

Idahoans Fear Loss.

Telegrams were received from the Idaho Producers Union and the Idaho Farm Bureau Federation asserting that fruit and vegetable growers face disaster unless the strike can be settled at once. Six thousand cars of early potatoes should be moved east before September 1 the messages said and added that 14,000 cars of late potatoes and 4,000 cars of head lettuce must be moved soon after that date.

E. F. Grable, head of the maintenance of way union today scouted reports from Detroit that his organization was again talking of striking and announced that he intended to submit to the board applications for wage rehearings on several roads. Cases already are prepared for submission on the Soo, the Union Pacific, and Louisville & Nashville, he said.

President Harding today conferred with W. W. Atterbury, vice president of the Pennsylvania railroad and Secretary Hoover regarding the strike, Mr. Atterbury stating that the seniority question was taken up. Scattered disorders were reported and in several states the forces of

GOOD PROGRESS REPORTED MADE IN HARVESTING

All Conditions Favorable Thruout the Country

(By The Associated Press)

WASHINGTON, July 26—Harvesting, threshing and cultivation made god progress during the week ending yesterday except in some southeastern states, the weather bureau announced today in its weekly weather and crop review. Moderate temperatures and sufficient moisture prevailed in most of the country tho the lower great plans region experienced hot weather and rain was needed in lower Ohio valley districts.

Generally favorable weather aided threshing of wintetr wheat in Central Valley districts and great plains states, tho this work was regarded in Mississippi Valley sections because of wet shocks due to rains.

Threshing was hindered by heavy rains in middle Atlantic states where yields were reported unsatisfactory especially in Virginia. Harvesting of winter grain made god progress in the elevated western and later northwestern sections.

Harvest Under Way

Except for lack of moisture in the western parts of the belt, spring wheat generally was favored by the weaather. Harvesting was well under way in most sections.

Dry, hot weather caused deterioration of late corn in western Texas and Oklahoma, but elsewhere except in some Lower Ohio Valley districts temperature and moisture conditions were favorable with most of the chief corn growing sections reporting satisfactory progress and condition. Some southeastern points were having trouble with cultivation, but elsewhere the fields were clean and barley corn in the south was being harvested.

Barley, oats and buck wheat were benefitted by recent rains in northeastern states but in the middle Atlantic Coast sections oats were damaged by heavy rainfall. Threshing of oats progressed in interior valley states but the yields were uneaven and disappointing in many districts because of previous dry weather. The yield was better than expected in some upper Mississippi Valley localities and the crop was fairly good in the western Lake region.

UNION PACIFIC WILL STAND PAT

OMAHA, Neb., July 26—The Union Pacific Railroad intends "standing pat" by its recent declaration not to restore pension and seniority rights to striking shop craft employes in event they return to work, W. H. Guild, assistant vice-president of the road said today.

A THOUGHT

If it is possible, as much as lieth in you, live peaceably with all men.—Romans 12:19.

Beware of entrance into a quarrel; but being in,
Bear it that the opposed may be ware of thee—Shakespeare.

In some localities scarcity of coal and inability to secure cars for grain shipments are resulting in the stacking of wheat. However, this seming inconvenience may really put money in the farmer's pockets. At present grain prices are somewhat demoralized and an upward turn is looked for later on.

HELPING HOME INDUSTRIES

It is a reasonable request that that those engaged in the cigar industry in Jacksonville are making, namely, that the people of this city show their interest in the industry by the purchase of home manufactured products. Year after year there has been sermonizing upon the necessity of buying at home if there are to be satisfactory home busines conditions In this instance there is opportunity to make practical application of the principle.

The cigar production in Jacksonville the first six months of this year shows a slump of more than 50 per cent by comparison with last year. The proper interest in the part of the people in this subject will result in steady employment for a larger number of people and increasing benefit to general business.

A COAL STRIKE SETTLEMENT PROSPECT

Lieutenant Governor Sterling has outlined a plan for the settlement of the coal strike in Illinois, and a conference has been called for August 3 to consider it. The plan has many marks of similiarity to that proposed by President Harding to apply to the national situation.

The lieutenant governor of course makes this proposal with reference to Illinois alone. The fact that President Farrington of the Illinois group of mine workers has all along been said to favor settlement by states gives the hope that a settlement so far as Illinois is concerned is in bright prospect.

It is reasonable to suppose too, that the acting governor had some idea of the attitude of both operators and miners before making the proposal. The outlook is very promising.

Mr. Farrington by the way altho he occasionally gives out a radical sounding interview, has a reputation for clear business vision and ability to get the public view point of the coal question in a way that does not seem possible for some of the miners' officials.

NOBBODY HOME

A brutal crime frequently attracts your attention in the newspapers. It is an atrocious murder or a fiendish assault. This sort of crime, you find it hard to understand, for it is the work of a fiend. You conclude that a madman did it.

Later the criminal is arrested. You read that he is a moron.. A moron is a person whose intellectual development proceeds normally up to about the eighth year of age, and then stops and never exceeds that of a child of about 12 years.

Check back over the past and you realize that you have met many morons—grown-ups with a child's mentality—who have been going along placidly thru life withcut committing crimes.

William J. Robinson, celebrated iconoclast-doctor, writes in his Medical Critic and Guide:

"A man may be a great painter, sculptor, actor or even a great poet, and in all other domains of human thought be a moron, have the mentality of a 12-year-old child."

This rather striking thought probably has occurred to you as you have sat back in the shadows of night, analyzed your fellowmen and tried to figure out what it is all about.

There is an old saying that every man is a fool outside his own business.

You meet a great success. He is a genius, a super-intellect, in his line. Talk to him about important outside matters which are not connected with his vocation, and you will find that thing, a moron on others. This is natural, for we live in an age of specialization. You see the reverse of this in the case of the man who is a jack-of-all-trades and a master of none.

Frequently we become so hypnotized by a man's success in his work that we imagine he would be a miracle man in anything he turned his hand to.

Occasionally, that might be true.

But, as a general rule, the individual has only one song—and can play it only on one instrument.

MUST GIVE ANSWER TO FORGERY CHARGE

G. D. Nelson Will Be Brought Back from Dallas, Texas

Requisition papers were issued Wednesday by the state department on application of State's Attorney Carl E. Robinson for the return to this city of G. D. Nelson, who is held by the police of Dallas, Texas, to answer a forgery charge.

Nelson lived in Jacksonville for about two years and in the later months of that time was an agent for the Cloverleaf Casualty Co. He is charged with forging the name of W. W. Hoots of Winchester to a note as payment for the premium on an insurance policy. Then, according to the charge, Nelson endorsed the note and secured its payment by R. Y. Rowe.

Later Nelson offered to take the note with him to Winchester for collection and it was turned over to him for that purpose. Shortly afterward Nelson left Jacksonville and a country wide search has been made for him.

Sheriff Weatherford left for Dallas yesterday and expects to return with the accused man in the course of a few days.

MRS. KIRKLAND HAS UNUSUAL RECORD

Age of Ninety-One Finds Her Still Vigorous—Born in Kentucky And Comes of Long Lived Family.

Today is the ninety-first birthday of Mrs. Nancy Kirkland, of 420 South Main street. The lady makes her home with her daughter, Mrs. M. Van Houten. She has been a resident of this city for the past thirty years, and a resident of this part of the state since she was nine years old.

Mrs. Kirkland comes of a long lived family. Her brother, Peter Johnson who had participated in the rush to California in "49, died at the age of 92.

Mrs Kirkland was born in Caldwell county Kentucky, in 1831. At the age of nine her parents moved to the neighborhood of Lynnville. In 1851 she was united in marriage with Thomas Kirkland of Winchester. The greater part of Mrs Kirkland's life was spent in Winchester. She has two daughters, three grand children and eight great grandchildren.

Mrs. Kirkland gives the credit for her long life and her excellent physical condition to living slowly. Certainly she has learned the art of growing old gracefully and now at 91 maintains her interest in the general affairs of life and gives promise of living still other useful and happy years.

BARN IS STRUCK BY LIGHTNING

Building on J. C. Andras Farm Near Murrayville Destroyed—Horse on Another Farm Killed.

A large barn on the farm belonging to J. C. Andras of Manchester, located about a mile and a half southwest of Murrayville was struck by lightning Wednesday afternoon and totally destroyed. A large quantity of hay and corn had been stored in the barn and this was also consumed by the flames which came immediately after the lightning stroke.

The barn was located in a field some distance from the other buildings and the fire was therefore confined to the one structure. However, a straw stack on the same farm was also struck by lightning during the storm Wednesday afternoon and totally destroyed.

A horse belonging to Otto Finch, a short distance north of Murrayville was also struck by lightning and instantly killed during Wednesday's storm.

A CORRECCTION

An item appeared in the Journal Wednesday stating that Gus Bergquist had moved to St. Louis. Mr. Bergquist has gone to St. Louis for a vacation and expects soon to return to this city and continue his work.

BERTON BRALEY'S DAILY POEM

IN MODERATION

By Berton Braley

I HAVEN'T much use for the kind of chap
With a smile forever upon his map,
Who's always chirping this cheer-up stuff
Like "Keep your spirit, though life is rough!"
Who says "Don't worry!" and "Show your grit!"
And a lot of that sort of rot;
For you've got to worry a little bit—
Though you needn't worry a lot!

I DON'T believe that a man can smile
And do it honestly, all the while;
It's good for the soul at times to fret
And worry over the luck you get;
And when fate hands you the icy mitt
And the game seems gone to pot,
You've got to worry a little bit—
Though you needn't worry a lot!

YOUR sense of humor should pull you through,
Whatever the woes that come;
But now and then it is healthy to
Be humanly sore and glum.
And there are times when a smile won't fit
The kind of a break you've got,
So you've got to worry a little bit—
Though you needn't worry a lot!

LARGE CAREAGE SOLD AT BLUFFS WEDNESDAY

About 1800 Acres of Oakes Estate Lands Sold at Public Sale to Settle Estates—Various Tracts And Purchasers Listed.

Bluffs, July 26—The public sale of real estate including about 1800 acres, to settle the estates of the late Henry and Charles Oakes, held at Lewis' hall Wednesday afternoon did not draw as large a crowd as was expected. None of the land sold brought the appraised value. Col. A. W. Cris of Missouri was the auctioneer.

The land was divided into 14 lots and sold as follows:

Lot 1—20 acres, adjoining town of Bluffs on south. Bid in by Oakes estate at $295 per acre.

Lot 2—16 acres adjoining town of Bluffs on southeast, good land, all practically level. Sold to E. L. Kendell at $255 per acre.

Lot No. 3—About 35 acres, adjoining Bluffs on east. Practically all level land. Bid in by Oakes estate.

No. 4—40 acres; hill blue grass pasture land; also includes 25 acres of meadow land 1-4 mile from Bluffs. Sold to E. L. Kendell at $70 per acre.

Lot. No. 5—120 acres hill blue grass pasture land. Excellent springs that flow the year around. Adjoining Bluffs on south. Bid in by estate at $62.50 per acre.

Lot No. 6—20 acres, consisting of 18 acres thrifty bearing apple orchard about 18 years old, principally stamen, Wine Sap, and Ben Davis, and 2 acres good p plow land. Sold to J. O. Chambers at $250 per acre. This tract lies near Naples.

Lot No. 10—80 acres adjoining lot No. 6 and 1-2 miles from townsite of Naples, known as the Ward place, partly sand ridge, part of which is apple orchard. Improvements consist of small house and barn in fair condition. Sold to J. O. Chambers with lot No. 6 for a total of $9,605.

Lot No. 7—127.7 acres, adjoining road 1 1-2 miles from Naples, all level alluvial, exceptionally rich corn land, practically all under plow. All in Scott county drainage and level districts, and subject to said district right of way. Bid in by estate at $105 per acre.

Lot No. 8—203.6 acres, adjoining townsite of Naples on south known as the Dressen farm; good level corn land. Bid in by estate at $40 per acre.

Lot No. 9—408 acres, lying 1-2 mile south of the city limits of Naples, 7 room house, large barn and shed. Main line of Wabash runs thru farm. Good level land. Bid in by estate at $40 per acre.

Lot No. 11—80 acres in Scott county drainage and level district, very rich deep soil; some small brush; 80 acres bearing pecan trees, on Ocean to Ocean highway 3-4 miles from Valley City on Wabash railroad, 4 miles to Naples. Sold to Henry Kilver at $50 per acre.

Lot No. 12—160 acres; 5 acres sand balance alluvial; in Coon Run levee district. Sold to Leroy Castle at $30 per acre.

Lot No. 13—176 acres and lot No. 14 adjoining lot 12, bid in by estate at $35 per acre.

Lots No. 12, 13, 14—Are subject to hunting lease of Bluffs Gun Club and is at present partially under water. It is a part of the late Harry Oakes estate and was sold to settle his estate at $55 per acre.

G. R. FOX HONORED ON HIS BIRTHDAY

Family Reunion Held at Homestead Near Chapin—To Celebrate Anniversary.

A family reunion celebrating the seventy-eighth birthday anniversary of George R. Fox was held yesterday at the Family Homestead one and a half miles north of Chapin. Scores of persons attended the afair and brought generous supplies of good things to eat.

The affair was a complete surprise to Mr. Fox as he had been lured to the home of his brother in Chapin so that arrangements could be made. He was informed that an auto trip had been planned to visit a niece in Petersburg and had gone to his brother's home with the intentions of starting on the trip. The party started but stopped at the old homestead on the way. There the party was waiting to greet Mr. Fox and express hopes for many happy return of the day.

Dinner was served under the magnificent elm trees in the rear o fthe house and nothing was spared to make it complete in every detail. A huge birthday cake was presented, adorned with candles representing every year of the long life of Mr. Fox.

Mr. Fox has resided in Morgan county all of his life and lives in the spacious home, built by his father, John Houston Fox, who came here from England many years ago. He is known and respected all over the country and many were the friends that wished him the happy returns of the day even tho they could not be present at the reunion.

Over two hundred guests had been expected to attend but dut to the threatening weather conditions, many were forced to remain at home. The company included:

Mr and Mrs. J. Z. Joy, Miss Edith Fox, Mrs. John Claus, Miss Isabella Fox, Mrs. Mattie Fox, Mr. J. Fox, Lee ox, Henry Alderson, Miss Mary Alderson, Mr. and Mrs. A. C. TELLS OF BEST ROAD TO SAINT LOUIS

J. F. Claus has returned from St. Louis with three new Chevrolets. One car was driven by Mr. Claus, another by his daughter Miss Frances and the third by Roy Conley.

The party took the hard road from the big city to Auburn and thence home. According to Mr. Claus that route is the best to take. It is about thirty miles longer than the road due south, but the added comfort and lessened gas bills make up for the longer distance.

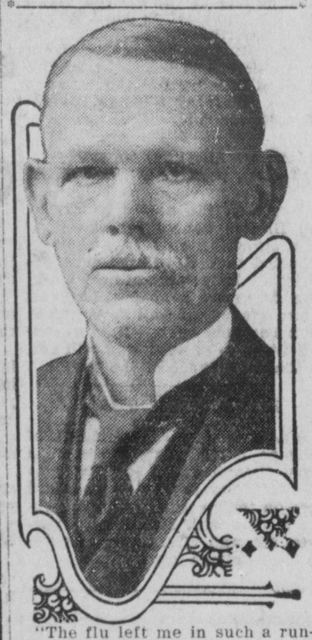
JOHN W. THOMAS, well-known insurance man of Wilmington, Del., who declares Tanlac promptly overcame his stubborn stomach trouble and run-down condition following two attacks of influenza. Gains weight and now feels fine.



"The flu left me in such a run-down condition life was miserable and work a burden," declored John W. Thomas, well-known insurance man, 600 Tatnall street, Wilmington, Del., in a recent statement regarding Tanlac.

"Twice I was a victim of the flu," he continued, "the last time about two years ago, and since then I suffered from stomach trouble, nervousness and dizzy spells. After eating, gas on my stomach worked up through my chest and made my heart beat so fast it alarmed me and I nearly smothered. I could never get a good night's sleep and got up in the mornings with a mean taste in my mouth and all tired out.

"Other medicines seemed to do me harm instead of good, but three bottles of Tanlac rid me of indigestion, the nervousness and dizziness. My sleep is restful and I am feeling like a different man. Tanlac is certainly great."

Tanlac is sold by all good druggists.—Adv.

SURE HELP TO SICK WOMEN

Mrs. Baker, so much Benefited by LydiaE.Pinkham's VegetableCompound, Anxious to Help Others

Lebanon, Indiana.—"I was completely run down from women's troubles and stomach trouble and for a long time was hardly able to do my work. I had some friends who had taken Lydia E. Pinkham's Vegetable Compound, and they told me about it. I know what it has done for me and I recommend it to others, as I am sure it will be a great help to all sick women. It is a wonderful medicine, and I give you permission to use my testimonial and my photograph." — Mrs. EMMA BAKER, 310 S. East St., Lebanon, Indiana.

These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which they are often subject.

Mrs. Baker calls it "a wonderful medicine." If you are suffering from troubles women often have, or feel all run down, without any ambition or energy for your regular work, take Lydia E. Pinkham's Vegetable Compound. It is a natural restorative and should help you.

HARDING MAKES REPLY TO CHAIRMAN DEAN

(Continued from Page One)

the same wages and under precisely the same working conditions as those under which they had been working contentedly for the last two years. Those who spoke for the mine workers refused such a proposal. There is no dispute of the right to refuse. Since they declined to respond and since it is believed there are enough men who love this country and cherish its security—I asked the governors of the coal mining states to invite mine operators and mine workers to resume their activities and to promise that to which every man is entitled, namely, protection in his lawful pursuits. This protection applies alike to the men on strike who observe the law and make no lawless interference with men at work, and to the men who are lawfully at work and entitled to protection by every agency of government in that work. If you mean to challenge the righteousness of free men to be protected in their lawful pursuits against interference and violence I will be glad to join you in submitting that question to the decision of the American people.

The "Class" Favored.

"It will interest you to know that instead of the government's action being an expression of the preference of the capitalistic class, it has been quite as much opposed by those who speak for employers as it is by you and your associates. Government undertakes to represent neither class alone and is opposd to all conflict among classes and disputes the right of any group or class, organized or unorganized to imperil American welfare.

"In view of all the government has done or has attempted to do during the past year and a half to relieve the American farmer from the burdens of readjustmen and to relieve labor from the hardships of unemployment, I know your attempted appeal to American prejudice will fall upon deaf ears. It is ungrateful and it is untruthful. If you are the believer in peace and harmony and the reign of justice, I invite you now to pass judgment on the failure of the mine workers to accept the awards of an able and impartial commission in determining the merits of the dispute between coal miners and coal operators, and I invite you to urge the striking railway workmen to accept the decision of the labor board acting under authority of the law, which must be supreme and return to work under that decision, until you and I, and everyone else interested in American welfare may join in asking the railroad labor board to give a rehearing on any question concerning which there is reasonable doubt about the correctness or the justice of the decision made. These are the things expected by your government of its loyal and law abiding citizenship."

Leaders Go to Washington.

Chicago, July 26—(By The Associated Press)—B. M. Jewell, head of the striking railway shopmen, the six international presidents of the shop crafts organization, Timothy Healy of the firemen and oilers and A. O. Wharton labor group member of the railroad labor board departed today for Washington, presumably for a conference with President Harding tomorrow regarding the rail strike situation.

After a hurried conference with the president the strike leaders planned to leave Washington tomorrow night arriving back in Chicago Friday morning. A veil of secrecy was thrown over the trip and their departure over the Baltimore & Ohio at 10:20 o'clock did not become public until hours later.

BLACKHEADS are Embarrassing

Oh! how can I get rid of them and enjoy the glory of a clear skin?

Don't despair! S. S. S. will lead you into a world you probably have never known before,—a world of joy, where strong light and love are welcome, where spotted-faced embarrassment is no more!

S. S. S. makes the blood rich and pure, and when your blood is freed of impurities, your stubborn blotches, pimples, blackheads, acne, rash, tetter and skin eruptions are bound to disappear.

Miss Ethel Rose, 422 E. Water St., Painted Post, N. Y., writes: "I was troubled with pimples on my face, neck and chest. I was advised to take S. S. S. I found it as claimed, as it certainly purified my system and my complexion is now clear."

NO SERIOUS STRIKE TROUBLES IN BLUFFS

Strike of Round House and Coal Chute Men Thus Far Brings No Disorder—Several Took Aeroplane Trip—Other Bluffs News.

Bluffs, July 27.—Bluffs is a very quiet place at present. The thirty round house men who went out July first and the twelve coal chute men, who later walked out in sympathy, are enjoying a vacation. The Wabash officials have placed a tent on the "right of way" to house the strike breakers who are employed her. Five of the strikebreakers were arrested Sunday afternoon and escorted to the lockup by Dave Reed, deputy sheriff and Frank Stanton, for gambling inside the city limits. Later they were released and ordered to leave town which, according to reports, they did.

The Hutson Aero and Auto Co. of Jacksonville sent an airplane here Sunday for pleasure riding. The following availed themselves of the opportunity and enjoyed the trip very much: Montie Blue, Royal Oakes and brother-in-law, Glenn Head, of Moline; Mr. and Mrs. C. A. Phillips and Ferris Sawyers.

Mr. Phillips made the trip to Jacksonville, returning later by auto.

Miss Helen Rockwood spent Saturday evening and Sunday with her parents, Mr. and Mrs. B. F. Rockwood, returning to Springfield Monday morning.

Mrs. Wyatt Simpson and son Fred of Mt. Sterling spent Saturday and Sunday with her niece, Mrs. Lee Baird and family.

Mrs. Omer Doyle was called to Meredosia to care for her mother who is ill.

Ralph Fuson and family have moved into the Woodson property on Stanton street vacated by Floyd House and family.

The land sale of 1,800 acres to setle the estates of the late Henry and Charles Oakes, drew a large crowd today. The ladies of the M. P. church served many good things to eat.

Mrs. John Strickler is visiting relatives in Canton.

Mrs. Lena Hollinder and little son of Joliet are guest of Mrs. Edith Schroeder.

Mrs. Clarence McCaleb and Miss Winifred Ashley were visitors in Jacksonville Saturday.

Clarence McCaleb, Omer Doyle and daughters, Helen and June witnessed the ball game between Myers Brothers and Winchester in Winchester Sunday afternoon.

1000 Practical Opinion and 130 Laboratory Experiments

Before we perfected this ideal shaving cream.

Now we ask you to try it—at our expense

130 formulae actually made up and tested

A few years ago we decided to make a shaving cream. We had already achieved the ideal toilet soap by blending palm and olive oils. So we embodied this blend in a shaving cream.

And our first step was to ask a thousand men the virtues they wanted in it. These were their requirements:

First, a quick shave

These men wanted quick shaves, above all. Did not like long brushing, finger rubbing, hot towels, delay.

So a cream was made which acts in one minute. Within that time the average beard absorbs 15% of water. This result is due to almost instant removal of the oil that coats the beard.

Next, liberal lather

Next, they wanted liberal lather. They wanted a little of the soap to go far.

So we developed a cream which multiplies itself 250 times in lather. A bit on the brush—only one-half inch—suffices for a shave. A single tube of Palmolive Shaving Cream serves for many weeks of shaving comfort.

Lather that remains

Then they wanted a lather which maintains itself without drying on the face.

So we perfected a lather which maintains its creamy fullness for ten minutes.

A soothing soap

They wanted a soothing shaving cream. They wanted a lubricated razor, no irritation, a pleasant after-effect.

The best way ever known to those ends is the blend of palm and olive oils. The lather is a lotion in itself.

18 months of experiment

We are experts in soap making. But it took us that long to attain this ideal shaving cream. Step by step its supremacies were attained, and finally the best shaving cream in existence.

Now we ask you to test it. Learn in how many ways it excels. It will lead the way to a lifetime of delightful shaves.

AN INTERESTING MUSIC PUBLICATION

J. T. Ellis has at the Journal office a very interesting music book, the "Carmina sacra," edited by that famous author of church music, Lowell Mason of Boston. The book was published in Boston in 1849 by Wilkins, Carter and Co. and is certainly interesting.

The book contains a number of lessons in music especially designed for beginners and then presents a vast number of psalm and hymn tunes, charts, sentences and anthems. It is attractive to any one and to a lover of music it would still be more fascinating.

Adult subscribers season tickets may be had for $2.50 while they last. With a season ticket you can enjoy any or all of the programs. The program for any single day is worth the cost of the season ticket. Lots of us have paid as much for single events no better than many on this program. It is marvelous that ten days' programs including such well known and excellent speakers and such large musical companies can be presented at so low a price. Community service on the part of the directors does it. It has always been the policy of the management to fix the price of season tickets as low as possible to maintain the quality of the programs and the programs have been such as to give our Chautauqua the reputation among Chautauqua managers and talent of being one of the best in the country. General conditions have increased the cost of everything which goes into the Chautauqua hence the price of tickets has been raised slightly as the 1919 and 1920 assemblies showed deficits. Even so, season tickets are lower in price than those of similar assemblies and no greater than is charged by most of the 3, 4, 5, and 6 day circuits.

A New Tread—a Lower Price Reliable Goodyear Quality

Here is a new Goodyear Cord Tire—a big, sturdy, long-wearing tire—that sells at a price lower than you are asked to pay for many "long discount" tires of unknown value.
It has a different tread from the famous Goodyear All-Weather Tread Cord—a new tread with a deep, clean-cut, cog-like pattern—and it sells for from 20 to 25% less.
It has in it the same high-grade long-staple cotton, the same Goodyear patented group-ply construction, the same liberally oversize dimensions.
When you buy the 4½-inch size, for example, you get a tire whose actual measurement is nearly 5 inches.
Don't confuse this Goodyear Cross-Rib Tread Cord with other popular-price cords which sell at the same price or for slightly more.
In many cases, these other cords are made of inferior materials, with short-staple cotton as a foundation.
Get the tire that is good enough to carry the Goodyear name, that is built to safeguard the world-wide Goodyear reputation.

Compare these prices with NET prices you are asked to pay for "long discount" tires

30 x 3½ Clincher	$13.50	32 x 4 Straight Side	$25.45	33 x 4½ Straight Side	$32.15
30 x 3½ Straight Side	15.85	33 x 4 Straight Side	26.80	34 x 4½ Straight Side	32.95

PLANNING WAYS TO SELECT THE MOST VALUABLE PLAYER

American League Owners Will Meet to Discuss Problems

CHICAGGO, July 26—Plans for the selection of the most valuable individual player in the American League and the nature of the trophy to be awarded him will be one of the important matters decided at the meeting of American League Owners here tomorrow. The draft problem and the recent deal involving several New York and Boston players also will come in for consideration.

A committee of baseball writers has been chosen by President Ban Johnson to select the most valuable player in the league, the selection being based among the other things on his season record, batting, fielding, sportsmanship and general conduct on the field.

Refusal of the Western, Three I International and Pacific Coast leagues and the American association to consent to the drafting of players by Major Leagues also is to be given consideration. President Johnson tonight criticized the attitude of the minors holding players for a high price as un-American.

"I consider it un-American," he said, "for a club or league to hold out for a high price for a player and thus prohibit him from advancing in his chosen profession by entering the major leagues where he can command a higher salary and secure greater opportunities."

TROTTING EVENT FEATURE OF DAY

COLUMBUS, Oo., July 26.—The 2:08 class trotting event shared a front stage position this afternoon with the feature of the third day's Grand Circuit program, which was the Deshler Hotel pacing stake for 2:11 eligibles. An accident in the first heat of the 2:08 trot forced the event into an extra heat contest and brought about some of the season's largest long shots.

McGregor The Great and King Watts were equally favorites in the race of $200 each for pools calling for $600. Clyde The Great the half mile track sensation stumbled on the back stretch in the opening heat and as a result King Watts and Linara Watts trailed home with broken sulkies. McGregor The G reat finished fourth to Patrick Todd. But three $2 mutuel tickets were out on Patrick Todd to win the heat and each paid $459.20. Aileen Dillon, who finished second paid $87 to place in the mutuels.

Just David won from McGregor The Great in the second heat. The Valentine trotter broke in the third heat at the first turn and just got under the flag, McGregor The Great taking the heat from The Triumph. In the fourth mile with heat winners only appearing, Cox's stallion beat Just David by a nose. An unhappy incident followed this finish when Valentine reached over and hit Driver Cox and his horse McGregor The Great with his whip to repay an alleged insulting remark from Cox. The argument was soon ended.

Henry Direct, the favorite to win the Deshler stake was able to capture only the first heat. J. W. S., in the field came thru and won the remaining heats and the race.

The 2:08 pace was won by Flo Patch after dropping the first heat to Banner M.

The 2:15 trot for thre year old colts only, was easy for Lee Worthy.

PRESS AND ELI WILL LOCK HORNS TONIGHT

Ball Clubs Will Meet at Indees Park in Post-Season Game

The Press baseball team and the Eli Bridge Co. nine will meet at 5:30 at the Indees park in their post-season game tonight. A good game is expected as both teams are worked up to a fighting edge and both are determined to win. These two teams recently "fell out" over a ball game in which the Press was defeated by a score of 5 to 2. The Press players threatened to protest the game, taking exception to some of the umpire's decisions, but later agreed to let the game go, at the same time challenging the Eli to a post-season game. A good crowd is expected.

The batteries will be, Press, Shelton and Sparger; Eli, Riggs and Magill.

Now is the time to see Kane about that new top or seat covers for your car. Cherry Annex.

BOXING COMMISSION ANNOUNCES DATES OF IMPORTANT BOUTS

Wills-Dempsey, Rosenburg-Krug, Dundee-Frush Are Scheduled

NEW YORK, July 26—Dates of three important bouts this summer in the metropolitan district were announced today by the New York state boxing commission. Harry Wills, Negro challenger of Jack Dempsey for the world's heavyweight championship has been matched with Tut Johnson of Washington Court House, O., for August 29.

Dave Rosenberg and Phil Krug will met August 14 to decide which shall be recognized as the world's middle weight champion so far as this state is concerned. Champion Johnny Wilson having been shorn of his title because he did not meet Harry Greb. Greb lost claim to it by declining to be matched with Rosenberg.

Johnny Dundee of New York and Danny Frush, of Cleveland will battle for New York State recognition as the world's featherweight champion August 15.

Thru Paul Rousseau of the federation Francaise de Boxe, Eugene Criqui, featherweight champion of Europe today challenged the holder of the world's title to a match but due to the uncertainty caused by the deposal of Kilbane in this state the Frenchman did not name an antagonist. Soldier Bartfield today deposited $2,500 forfeit with a formal challenge to Jack Britton, welterweight champion for a world's title bout.

GIANTS INCREASED THEIR LEAD OVER CARDS

New York Pounded St. Louis Pitchers for Twenty Hits and Won By Score of 10 to 5—Douglas Was Hurt and Retired In the Seventh.

New York, July 26.—The New York Giants increased their lead over St. Louis to a game and a half by winning the second game of the series from the Cardinals 10 to 5. The champions pounded four pitchers for 20 hits.

Douglas was painfully hurt when hit on the right elbow by Barfoot in the seventh inning and he retired.

LEONARD-TENDLER BOUT TONIGHT OF UNUSUAL INTEREST

Both Men in Pink of Condition and All Ready for Battle

NEW YORK, July 26—Not since the Dempsey-Carpentier fight has the public been so worked up over a boxing match as it appears to be over the encounter tomorrow evening in Jersey City between Champion Benny Leonard, New York and challenger Lew Tendler, Philadelphia, for the world's lightweight title.

Hardly since Leonard took the title from the Englishman, Freddy Welsh at the old Manhattan Casino here has there been so much pre-fight discussion over a lightweight contest, tho in the intervening time Benny has met every contender who asked for a chance. Tendler has fought an uphill battle for recognition all this time.

Leonard Dangerous

By almost everyone except the champion, Tendler acknowledged the most dangerous opponent Leonard had hazarded his crown with since ascending the throne.

To newspapermen at his training camp at Budd Lake, N. J., Leonard has belittled Tendler and christened him a "dub."

Leonard has trained hard and carefully, which Tendler cites as ample refutation of the champion's utterances. Leonard says he never will be a better boxer. Tendler too has trained diligently at his quarters at Delanco, N. J. He has declined to make a prediction and anly says "I'm going to do my best."

It will be the first meeting of the two, tho they were matched for a championship bout last year. An episode occurred that caused ill-feelings Tendler's manager, Phil Glassman, taking the $5,000 forfeit Leonard had tendered for appearance, which he was unable to make because of a broken hand.

Opinion Divided

Boxing experts are divided on which man hits the hardest, which is the most aggressive and which can absorb the most punishment, but there is a clear difference in their fighting styles. Tendler is a lefthander and Leonard uses his right to greatest advantage, Tendler is a body puncher and Leonard takes more kindly to chin and jaw. Of the two records Leonard's is far the best.

In physical qualifications matters are nearer equal. If Tendler, who is 23, can be said to have youth on his side, then Leonard who is 26, can claim age, but each is near to the summit of a boxer's development. Leonard is the more experienced though Tendler is a great distance away from the tyro class.

Their weight will be about equal—they must weigh in at 135 pounds at 2 o'clock tomorrow afternoon but it is generally believed that getting down to weight has been more costly to Leonard. Tendler has nearly two inches advantage in height and one inch longer reach. The margin in neck, chest, forearm, etc. is negligible, tho in Tendler's favor.

One powerful factor that Tendler will be facing is precedent. No lightweight champion ever has been deposed in the full flower of his power. The next biggest crowd in the history of pugilism is expected to see the battle. The estimate of Tex Rickard, the promoter, is 15,000. It will be a record "gate" for a lightweight match, probably between $400,000 and $500,000.

CLEVELAND DEFEATED PHILADELPHIA 2-0

Cleveland, O., July 26.—Cleveland defeated Philadelphia 2 to 0, Uhle besting Rettig, Connie Mack's latest pitching sensation, in a hurling duel. Rettig held the Indians to four hits, but none of them were wasted. The score:

MODERATE UPTURNS IN WHEAT PRICES

By Associated Press.

CHICAGO, July 26.—Export purchasing in large amounts brought about a moderate upturn today in the price of wheat but with hedging sales renewed the gaines proved mostly transient. The market closed unsettled ⅛c net lower to ¼c advance with September $1.07 to $1.07⅛ and Dec. $1.09½ to $1.09⅝. Corn finished ⅜c to 1⅛c lower, oats @⅛c to ⅜@⅜c higher ¼and provisions down 20 to 32c.

Urgent buying of red winter wheat for shipment from ports on the Gulf of Mexico was credited to France and it was estimated he day's export business in all positions would total 2,000,000 bushels.

Shippers here continued to say that altho there was no difficulty in getting exporters to take wheat that was loaded or was due to be loaded in a day or two anything beyond this was hard to dispose of.

Offerings of wheat increased on all advances in price with the character of the selling denoting more hedging from the country especially the southwest. Another bearish influence was the heavy receipts at primary points, nearly double the aggregate a year ago.

Reports from a variety of sources indicated that most of the spring crop had reached a stage beyond danger from rust. Emergency orders regarding railroad traffic had no apparent effect on the course of prices.

Corn, like wheat declined as a result of enlarged rural offerings.

Oats developed strength because of disappointing threshing reports.

Provisions were depressed by weakness in the hog market. Packers did much of the selling.

CASH GRAIN REPORT

By Associated Press.

CHICAGO, July 26.—Cash wheat was in good demand today, but broke on liberal offerings. Trading basis were ½ and 2 cents easier; the latter for No. 3 and No. 4 grades of red.

MANY LOSSES ON STOCK EXCHANGE

By Associated Press.

NEW YORK, July 26.—Stocks were active and strong at the opening of today's sesion on news that the federal authorities had taken control of food and coal traffic but heavy selling later caused many net losses.

Oils and motors were again the vulnerable features. Mexican seaboard common and certificates registered new lows for the movement. Pierce Arrow common and preferred were subjected to further liquidation. Studebaker was freely off but the report of the U. S. Steel corporation for the year's second quarter was regarded as extremly favorable that issue showed occasional pressure with most of the prominent independent steels.

Rails cancelled the greater part of theid moderate advances in the latter part of the trading. Sales amounted to 700,000 shares.

Call money rates held at 4 per cent until the final hour when offerings were made at 3½ per cent. The demand for time funds was light, with no change for the important maturities..

Foreign exchanges added generally to yesterday's reactions. Sterling demand was quoted under 4.45.

A brisk advance in the uncalled Victory 4¾ per cent notes on the treasury's announcement of the redemption of $1,000,000,000 of that issue next December was the outstanding feature of the bond market.

Liberty 3½s scored a new high record for the year at $101.78, and others of that group were firm, but eased later with the reaction in the stock market.

Total bond sales (par value) aggregated $17,681,000.

RESIDED HERE MORE THAN SEVENTY YEARS

Mrs. Antonio Franks Observed Ninety-Third Birthday Wednesday—Still in Good Health.

Mrs. Antonio Franks of 1042 North Fayette stret observed her ninety-third birthday yesterday. To Mrs. Franks belongs the honor of having been a resident of Morgan county for seventy years, so it is easy to understand that she has seen some remarkable changes come to pass.

Altho so far advanced in years, Mrs. Franks is in excellent health and is able to attend to customary household duties. One day this week she baked pies and took several of them to a neighbor friend who was celebrating her eighty-second birthday.

Mrs. Franks was born in Trinidad and as a young woman came with her parents to the United States. The trip to the west was made from New York by the canal and lake route and this brought them to Naples in Scott county. Then the travelers from afar boarded the Northern Cross railroad and came to Jacksonville. The family home was for a long time on a farm and a part of Mrs. Franks' married life was also spent on a farm. However, in more recent years the home of Mr. and Mrs. Franks had been on North Fayette street in this city.

Mr. Franks, who is also far advanced in years, is also unusually strong both physically and mentally, and the old couple give excellent promise of being able to register in the centenarian class.

Mrs. Joseph Gomes, Mrs. Frank Martin, Mrs. Manuel Salby of this city, are daughters of Mrs. Franks and her sons are A. F. Franks of East St. Louis, Henry Franks of Kansas City, and Joel Franks of Hennessey, Okla. John E. DeShara, another son father of Walter De Shara of this city, died a number of years ago.

There was no formal observance of the important anniversary yesterday but Mrs. Franks received a great many post cards and a number of gifts from relatives and near friends. Still others called at the Franks home during the day to personally extend their congratulations and express their good wishes.

Mrs. Franks for a long period has been a member of Northminster church and tho she is not always able to attend the services her interest in the work of the oganization is fully maintained. As was characteristic of her people who came seeking new homes, in America in the early days, Mrs. Franks has very strong and definite religious beliefs and is a woman whose life has commanded the admiration of all who have come to know her thru an unusually long life. Time has dealt kindly with her and as already indicated the members of her family and her friends are hoping that her life may be spared for many years to come.

BRING THOUSANDS OF FISH TO LAKE MAUVAISTERRE

F. L. Sharpe and a number of other local men went to Meredosia yesterday afternoon and returned late last night with 4,000 fish to be placed in Mauvaisterre lake. The fish were brought to this city in three large trucks and in the lot were bass, croppies and sunfish and several other varieties.

Mr. Sharpe has been active for some time past in arranging for this large consignment to the local waters and was notified yesterday by the state fish commission that the fish were ready, and the trip yesterday afternoon was the result. The party arrived at 10:30 o'cock last night losing but two fish out of the entire 4,000.

MARRIED AT MEREDOSIA

Meredosia, July 26.—The marriage of Miss Gladys Scott and Carl Beauchamp was solemnized here tonight at 9 o'clock at the parsonage of the Methodist church. The pastor, Rev. G. W. Holmes, performed the ceremony in the presence of a limited number of witnesses.

The bride is a daughter of Mr. and Mrs. George Scott of Meredosia and Mr. Beauchamp is a son of Mr. and Mrs. Frank Beauchamp, who reside on a farm in Meredosia precinct.

The young people are quite well known in this community and have the esteem and good will of all. For the present they are to reside at the Beauchamp homestead.

Joyful Six at Pleasant Party

Members of the Joyful Six were entertained Tuesday evening at the home of Miss Louise Gōheen and the occasion was a pleasant one in every way. The next meeting is to be held Tuesday, August 5, at the home of Misses Hazel and Vivian Carlile. The other members of this social group are Stella and Marietta Gruber and Estellamay Grimm.

Party In Honor Of Miss Decker.

A number of the girls of the Cloverleaf offices gave a picnic party last night in honor of Miss Helen Decker, who is soon to leave for Colorado. She plans to make her home in Denver and will leave for there in a week or ten days. Miss Decker has many friends among the young people of the city who will be sorry to see her go.

Those present were Misses Mildred Harvey, Catherine and Irene Gustafson, Goldie Elliott, Maurita Doenges, Clara Fletcher, Margaret Strandberg and Frances Dowling.

LARGE HAY BARN NEAR MANCHESTER BURNS

William Dean Loses Property as Result of Lightning Strike During Wednesday's Storm—Other Manchester News.

Manchester, July 26.—During a severe storm which visited this vicinity Wednesday afternoon the large hay barn on the farm of William Dean north of town was struck by lightning and later burned to the ground. The barn was almost filled with hay and this was also totally destroyed. Mr. Dean carried insurance on the hay but had none on the barn, and his loss will therefore be quite heavy.

Henry Bell and James Woodall went to St. Louis Wednesday morning with a shipment of cattle.

BIG BUSINESS DAY IS IN PROSPECT

Bargains Galore Will Be Offered Next Tuesday By Jacksonville Merchants; One Hundred Twenty Co-Operating.

Tuesday, August the 1st., will be Jacksonville's second semi-annual Dollar Day. The committee in charge has worked hard and so far 120 business men of Jacksonville are co-operating in making this day one of the greatest trading events that the city of Jacksonville and surrounding communities have evet witnessed.

The business men of Jacksonville are sparing no pains to make this day a success. Extra sales people have been employed. Prices will be cut to rock bottom. Special bargains will be in evidence in every store. Uniform price tickets, streamers and pennants will be used by every co-operating business man.

The country-side for 50 miles around has been placarded with the big yellow posters. Adds have been placed in all surounding newspapers. sSpecial editions have been gotten out by several of the smaller town newspapers, and all signs point to a wonderful bargain day event.

Today committees will be busily engaged in distributing Dollar Day material. East State Street will be in charge of George Vasconcellos, West State Street will be in charge of A. R. Taylor, the West Side of Square in charge of Louis Horen, the North Side of square will be in charge of Edward Tomlinson, The South Side in charge of Henry Smith, the East Side in charge of Clarence Lukeman and South Main street will be in charge of W. A. Berryman. All other side streets and outlying districts will be in charge of a special committee composed of William Deutsch, Herbert Smith and Hugh Breeden.

Business men have been asked by the Dollar Day Committee to park their cars on Dollar Day some distance from the business district or leave them at home, in order that every foot of available space in the business district will be left open for the out of town shoppers to park their cars.

Watch IDEAL Bread.

ANOTHER FAMOUS HORSE IS DEAD

Hidden Mystery, a running horse belonging to Scott Green, died recently. The horse was twenty-four years old and had been on pension for the past two years. Old age was the cause of the horse's death. Hidden Mystery was the grandson of St. Blaise, famous winner of the English derby.

Many Jacksonville people will remember Hidden Mystery as he was famous in the matinee races on the old race track.

WINCHESTER I. O. O. F. HAD PICNIC AT PARK

Large Number of Members With Their Families Came for Annual Outing—Have Great Time

Members of Pioneer Lodge No. 70, I. O. O. F., and their families gathered at Nichols park several hundred strong yesterday and proceeded to have a good time at their third annual picnic. The best of humor prevailed and all devoted themselves to entertaining each other and with the success usual on such occasions.

There was no set program but all devoted themselves to enjoying the day and succeeded beyond a qustion. Of course dinner was a prominent feature and the writer and faithful Superintendent Hopper can testify that it was truly a feast of good things. Fried chicken, bread, pies, cakes, fruits, jellies, pickles, iced tea, lemonade and coffee were a part of the generous and excellent bill of fare which was repeated at supper time.

In the afternoon many more came up and all joined in the festivities and a good many remained to enjoy the dance. Last year they brought a rain and for a while it loked as if it would be repeated this time but the clouds went by. It was a splendid occasion and all went off well. Claude Burrows, Noble Grand, and Dr. Dace, secretary were present.

The committees were:

General Arrangements—O. E. Coultas, W. F. Wainwright, William Carlton, Dr. Dace and Fred Hamilton.

Tables—Mrs. Ed Smith, Mrs. Claude Burrows, Mrs. Judge Funk, Mrs. Cal Simmons, Mrs. James Edmonson and Mrs. Sol Hainsfurther.

In the afternoon Speith took a group photograph of the gathering.

PARK BOARD EXPRESSES ITS APPRECIATION

The park board desires to express officially their thanks to Pioneer Lodge No. 70, Winchester, for great courtesy extended at the picnic and to express also their great enjoyment for the good things provided at the dinner and supper; also for the thoughtful manner in which the visitors cleared up the grounds before leaving.

FUNK FAMILY TO HOLD REUNION

Many Expected at Birthday Celebration of Mrs. Laura Funk.

The Funk family will hold their annual reunion today at the home of Mrs. Laura Funk, east of Exeter. As today is Mrs. Funk's birthday this was decided upon as the best day for the event. The fact that Mr. and Mrs. Clarence Funk and family of Devils Lake, N. D., are visiting here and will leave soon for their home was also one of the reasons why it was decided to hold the event at this time, which is earlier than usual.

An all day picnic will be held in Funk's grove, and many games and other amusements have been arranged for to entertain the guests, who will number about one hundred and twenty five.

Those who will attend from this city are: Mrs. E. J. Funk, and daughter; Mrs. Ernest Strawn and son; Y. Y. Funk, Dr. and Mrs. W. A. Wainwright and family; Dr. and Mrs. Bodkins and family; Mr. and Mrs. Lloyd Ross and family, and Charles Peik. Mr. and Mrs. A. G. Funk from Waverly will be there. The others wil include all the relatives from Winchester, Bluffs, Exeter, Chapin and that vicinity.

INTERESTING REPORT GIVEN AT CONGREGATIONAL CHURCH

At the prayer meeting at Congregational church last night a very interesting report was given of the meeting of the young people of the church at Dixon. Several of the young people who had attended spoke and all gave the impression that they had learned a great deal and had enjoyed themselves much.

Dean G. H. Scott of Illinois college was connected with the management of the conference, and Rev. G. E. Stickney, of this city was in charge of the athletics.

FORTY-TWO MEN OUT AT BLUFFS

Some newspapers have given exaggerated figures with reference to strike conditions at Bluffs. Thirty men are employed in the shops and round house there and went out on strike July 1. Later twelve coal chute men quit work. This brings the total number to forty-two and not to seventy, as some newspaper stories have given.

Some strike breakers are being employed by the Wabash but thus far there have been no disturbances, and the Bluffs people are maintaining good order.

Mrs. Lavinia Ealy of the south part of the county has gone to Murrayville to visit her brothers, Edwin and Harry Cate.
